

**Amendment to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

**Claims 1-11 (cancelled)**

**Claim 12 (currently amended):** ~~The dispensing system of claim 11~~ A dispensing system comprising:

a first dispenser, wherein the first dispenser comprises:

a first tray having an arcuate section for receiving a roll of sheet material;

a first cover, having a front edge and a back edge, with an offset pivot point above a principal rotational axis of the first tray wherein a first cutting surface is fixedly attached to the front edge and the first cover is operably mounted within a first stationary cover wherein the first cover further comprises a first tab extension and the first stationary cover further comprises a slot for receiving the first tab extension, and wherein a rotation of the first cover is limited by the first tray.

**Claim 13 (currently amended):** The dispensing system of claim ~~[[11]]~~ 12 wherein the first tray further comprises apertures for digitally contacting received sheet material.

**Claim 14 (currently amended):** The dispensing system of claim ~~[[11]]~~ 12 further comprising:

a second dispenser wherein the second dispenser comprises:

a second tray having an arcuate section for receiving a roll of sheet material;

a second cover, having a front edge and a back edge, with an offset pivot point above ~~[[the]]~~ a principal rotational axis of the second tray wherein a second cutting surface is fixedly attached to the front edge and the ~~[[first]]~~ second cover is operably mounted within a ~~[[first]]~~ second stationary cover.

**Claim 15 (currently amended):** The dispensing system of claim ~~[[11]]~~ 14 wherein the ~~first~~ second tray further comprises apertures for digitally contacting received sheet material.

**Claim 16 (currently amended):** The dispensing system of claim ~~[[11]]~~ 14 wherein ~~the first cover further comprises a first tab extension, the second cover further comprises a second tab extension, the first stationary cover further comprises a slot for receiving the first tab extension, and the second stationary cover further comprises a slot for receiving the second tab extension, wherein a rotation of the first cover is limited by the first tray and a rotation of the second cover is limited by the second tray.~~

**Claim 17 (currently amended):** The dispensing system of claim ~~[[14]]~~ 16 wherein the first dispenser and the second dispenser are mounted in a plane having a substantially horizontal orientation.
